CONSISTENCY OF CARE

Co.As.It. aims to maintain consistency across supports - this means that we try to provide the same, regular support team members for our participants.

If you are aged under 65 years and have a permanent and significant disability, you may be eligible for NDIS services.

The NDIS provides support for people with disability to achieve their goals, participate in their community, and be part of the workforce.

We provide an extensive range of supports, either through direct services or by partnering with other providers. By doing this, we can be a single point of contact for you.

FLEXIBILITY OF CARE

Our diverse range of services enables us to adjust your care plan as your needs change. We provide support, nursing, and allied health services (such as physiotherapy), with several therapists who are part of the Co.As.It. team, making us more responsive and effective than other providers. Whatever your situation, we can offer you the support you need.

We will be supportive, responsive, adaptive and innovative to suit your choice of care and lifestyle. You will have direct access to your dedicated coordinator who will manage your care choices.

Co.As.It. is a charitable organisation that has provided aged and community care services since 1978, catering to the needs of the general community with expertise in CALD (Culturally and Linguistically Diverse) care.
