WHAT IS QCSS?

The Queensland Community Support Scheme (QCSS) provides support to people under 65 who have a low-level disability, chronic illness, mental health, or other condition that impacts their day-to-day functional capacity and ability to engage in the community.

QCSS provides basic care and support aimed at assisting people who experience impairment because of their condition to live independently, and to increase their engagement in their local community.

All supports are based on your goals to encourage reablement. Support activities are classified as either "Direct Care & Support" or "Community Connection Supports".

Services are time-limited and low-intensity. There is a maximum of 5 hours of services per week.
