

Snippets of My Life

This program received funding assistance from the Australian Government
Department of Health and Ageing
under the Community Partners Program.

FOREWORD

“Snippets of my life” has been designed for a dual purpose:

- to help staff in residential aged care facilities gain insightful knowledge on the historical/cultural/familial background of the Italian CALD resident and how this information can be used to provide better culturally appropriate care for this resident.
- to help family members gather valuable personal details about their loved one and preserve this knowledge as part of their family history.

Each page can be used on its own or as part of the wider booklet. Individual pages may be placed on display in the resident’s room, may be changed, edited and all pages kept together as a resource.

Taking the time to provide pictures, anecdotes and stories not only preserves the often untold elements of a person’s life but also provides a basis for reminiscing and sharing life experiences.

Co.As.It. Brisbane
(Community Partners Program Team)

This is me

Include a current photograph.

Snippets of My Life

I was born in....
